Community Service Program

Build Community. Enrich your Life.

Community means all of us. Collectively or individually, we can contribute to the well-being of our local, regional, and global communities. Each of us has unique talents, interests, and gifts to share.

Each of us can affect change for the better.

Why Volunteer?

To strengthen community

To become an active, engaged member of society

To share your gifts with those less fortunate

To develop contacts for future jobs or internships

To learn and develop valuable skills

To enhance your college application

To meet the volunteer requirement of many scholarships

To earn an Community Service Honor Cord to be worn at graduation
