

Understanding the Grade

Parents of ISD students are invited to an evening presentation with author and internationally known expert on grading practices

Dr. Thomas Guskey

Dr. Guskey, as an author and consultant to schools around the world, brings clarity and insight to education's complex issues. For our presentation he will discuss the topic of grading at both elementary and secondary levels. He will share pertinent research, describe new directions in grading policies, and offer suggestions for enhancing communication between parents and teachers. Dr. Guskey will welcome questions after his presentation.
