

Issaquah High Student Profile

Brogan Brown
IHS Class of 2022

What classes at Issaquah High do you love and why?

I love anything to do with the human body or literature! I have thoroughly enjoyed both Biomed/Physiology and am currently taking Sports Medicine at IHS. It fascinates me how the human body works, and though I don't necessarily have an interest in going into the medical field I think it is valuable information all individuals should know to help sustain a healthy body. I also loved AP Language and am currently taking AP Literature. Poetry is one of my strong suits, so I have fallen in love with spending my afternoons analyzing and studying literature in this class.

Do you have any cool hobbies?

I write and produce my own songs and make music videos with my dad! I have written music ever since I was young, but just started getting seriously into it. Over the summer I made a studio in my loft and have created a YouTube channel--Songs by Brogan-- to post my music. I use music to serve others by writing songs for my family members and friends that are going through difficult times. It has been a great way to connect with others and bring hope to people at this time of fear.

Is there anything else that you would like to share?

I do a lot of leadership both in and outside of school. I am currently the ASB Secretary for IHS, Choir President, and have received a Pillar Award in Leadership by the faculty of IHS. These roles have taught me a lot about the power of kindness, and how serving others brings purpose to my life. I do my best to create wholesome and memorable activities for my peers, befriend those who are alone, and support the people around me. I hope to continue my leadership journey in college and throughout my life.
