

## Issaquah High Student Profile

### **Avery Marbut**

IHS Class of 2021

#### **What classes at school do you love and why?**

My favorite class I have taken at Issaquah High school so far is, AP Biology. I fell in love with biology my freshman year and AP Bio confirmed my passion for the science and desire to continue in the field in some capacity.

#### **What are some of your favorite high school memories?**

Some of my favorite high school memories include cheering at the Special Olympics basketball games, and peer tutoring for the LRC 2 Class. I have met some of the most amazing staff and students/peers in this class who have taught me so much about life. These programs have really inspired me to want to go into Occupational therapy.

#### **Do you play sports and if so, how has sports made an impact on your life? Any highlights you would like to share?**

I have been a cheerleader for Issaquah for the past four years, and currently serve as a Co-Captain. Participating in cheer has taught me about commitment, discipline, leadership and community. The Issaquah High school cheer squad is an amazing team, and I am so proud to be a part of it.

#### **Are you in a club and if so, what are the best parts of being in that club? Any memorable experiences you would like to share?**

I am the President of Issaquah High School's choir. I absolutely love music and being able to share that passion with my peers is so special. I am also President of Eagle Crew, Issaquah High's freshman inclusion club.

**Is volunteering part of your life? If so, tell us about your volunteering experiences and what you love about them?**

I have been involved with the Issaquah Youth Cheer program the past 3 years and have volunteered over 100 hours in just that program. I am a volunteer coach for elementary aged kids. I love cheering and kids so being able to combine those two passions has been an absolute joy.

**Any plans yet after high school?**

I plan to attend a four year college after high school. I hope to study either human biology or psychology, something that will get me on the pre-med track to one day become an occupational therapist.

**What do you do for fun?**

For fun I love to play my ukulele, hike with my dogs, read, sing and cook with my mom.
